

ABDALLAH YAACKOUBI

Senior Product Designer (UX/UI)

abdouyaackoubi@gmail.com · +216 29 452 693 · Tunis, Tunisia

Portfolio: abdouyaackoubi.com · linkedin.com/in/abdou-yaackoubi

PROFILE

Senior product designer with 6+ years shipping end-to-end digital products across AI, fintech, SaaS and marketplace platforms. Owns the full cycle — discovery and research, information architecture, wireframes, high-fidelity UI, prototyping and design systems — and works alongside engineering through handoff and QA. Repeatedly the sole or founding designer: built design systems from zero, set design process, and turned complex technical capability into interfaces non-specialist users understand. Trilingual in Arabic, English and French.

CORE SKILLS

Product Design: End-to-end product design · Design systems · Interaction design · Information architecture · Responsive & mobile design · Accessibility (WCAG-aware)

Research & Validation: User interviews · Usability testing · Journey mapping · Service design · A/B testing · Analytics-informed iteration

Collaboration: Developer handoff & design QA · Cross-functional facilitation · Stakeholder alignment · Roadmap input · Design critique & mentoring

Design Tools: Figma · Sketch · Framer · ProtoPie · InVision · Abstract · Zeplin · Google Analytics · VWO · HTML/CSS

AI in the Workflow: Claude Code · LLM-assisted design and prototyping · Midjourney · AI-generated concept exploration, copy iteration and design-to-code handoff

EXPERIENCE

Senior Product Designer (UX/UI) — InstaDeep

Jan 2024 – Present · Tunis, Tunisia

- Lead designer for enterprise AI products, translating machine-learning outputs into data-dense dashboards and decision tools used by technical and enterprise users.
- Own and extend the product design system — components, tokens and interaction patterns — cutting design-to-build time and keeping UI consistent across every product surface.
- Partner with engineering daily on specifications, handoff and design QA, so shipped interfaces match design intent without rework cycles.
- Design product and marketing landing pages that make complex AI capabilities legible to non-specialist audiences.

Chief Product Officer (Product Design Lead) — Steer AI

Oct 2021 – Nov 2023 · Tunis, Tunisia

- Led product design end-to-end across web and mobile as the company's design authority, reporting directly to the founders.
- Shipped three products from zero to launch: a B2B marketing site, a B2B SaaS platform and a two-sided marketplace.
- Built the design system and scalable UX patterns adopted across every product surface, shortening delivery time for new screens.
- Ran discovery with the CTO, engineering and marketing — user interviews, journey mapping and usability testing — and converted findings into prioritised roadmap work.
- Established design operations for the team: research cadence, design critique, documentation and handoff standards.

UX/UI Designer — Groupado

Feb 2021 – Jul 2021 · Tunis, Tunisia

- Designed end-to-end UX/UI for web and mobile applications, from user flows and wireframes to production-ready interfaces.
- Applied service design methods to restructure navigation and information architecture, improving task completion on core journeys.
- Delivered responsive design across breakpoints with annotated specifications and asset libraries for developer handoff.

UX/UI Designer — Konnect

Feb 2020 – Jan 2021 · Tunis, Tunisia

- Sole designer across multiple fintech products, including a digital wallet and an on-demand delivery application.
- Owned UX/UI and brand identity for a Tunisie Telecom project end-to-end, from concept through final delivery.
- Designed onboarding, KYC and payment flows for first-time digital wallet users, balancing security requirements against drop-off.

Freelance Product Designer — T+ Ingénierie Informatique

Mar 2020 – Jan 2021 · Remote

- Delivered applications, admin dashboards and e-commerce platforms for SME and enterprise clients.
- Managed engagements end-to-end: scoping, client workshops, design, delivery and iteration.
- Translated ambiguous client requirements into structured, scalable product specifications.

EDUCATION

BTS Communication Visuelle, option Multimédia — Carthage Art Academy

2017 – 2021 · Tunis, Tunisia
